How Did We Get Here?

- 2015 - Creation of Joint Subcommittee
 - Data Section ABJ00
 - Public Transportation Executive group AP000
- Workshops and annual subcommittee meetings
- 2021 - Transit Data Standing Committee: AP090
- Committee Scope: Focus on the use of foundational and emerging transit data

Image from NTD

Goals of Today's Meeting

- Confirm our interests and issues
- Chart way forward
- Identifying committee leadership
- Nominate research champions

Image from kypublictransit.org

Committee Cycle

Time Required for Different Participation Levels

Participation Type	Duration of Effort	Frequency of Effort
Workshop	2 years	monthly
Subcommittee	multiyear	biannual
Task Team	6 to 12 months	monthly
TCRP Synthesis	3 months (or 15 months)	bi-weekly
TCRP Full Proposal	24 to 30 months	monthly
AP090 Leadership	3 years	varies
Liaison	1 to 3 years	biannual
Young Member Coordinator	varies	monthly
Co-Committee Research Coordinator	3 years	monthly

Quarterly Status Update Call. First one, April 2021!

Research Needs Example

Champion: <i>(person)</i>	Ray Chan (With Rachel Dungca + Moyin Li)
Format:	TCRP <input checked="" type="checkbox"/> Task Force <input type="checkbox"/> Subcommittee <input type="checkbox"/> Workshop <input type="checkbox"/> Other <input type="checkbox"/> Research Paper <input type="checkbox"/>
Research Question:	How do agencies organize and use data to communicate to decision makers?
Funding Options	TCRP Synthesis (Got funded as TCRP SG-18)
Why is it important?	It is important to help build a stronger data centric decision making method to allow transit agencies to train staff with best practices

Committee Participation Survey Results!

Members and friends, who are we and how balanced are we WRT to TRB-stated diversity criteria for...

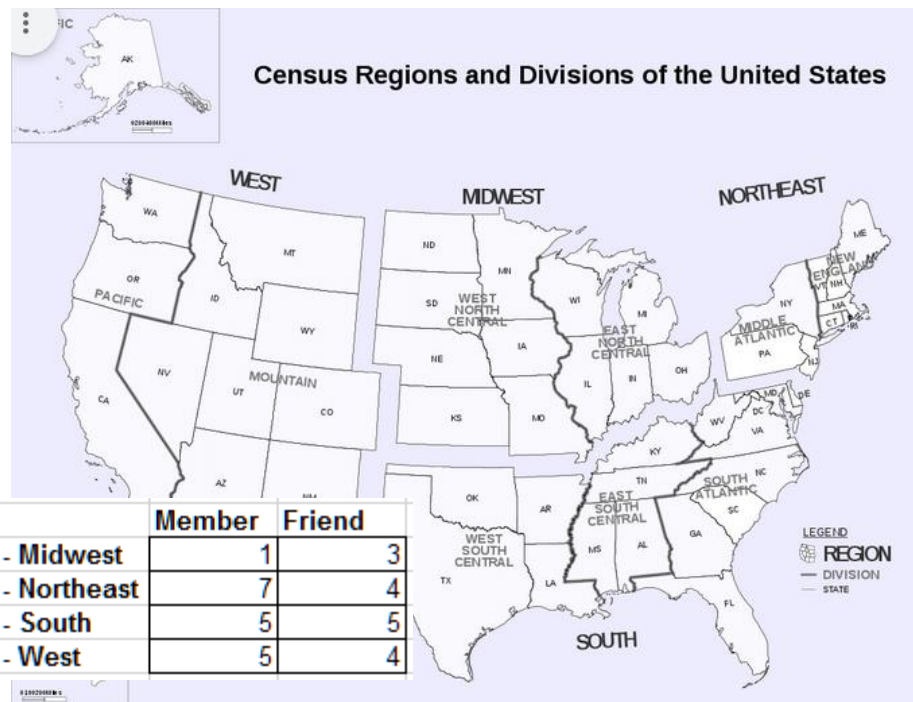

- Location/Geography
- Gender
- Minority Status
- Affiliation (agency, academia, government)

Location / Geography

	Member	Friend	Just curious	Grand Total
Africa	-	1	-	1
Asia	1	4	-	5
Australia	-	1	1	2
Europe	-	4	-	4
North America	18	14	4	36

Chair's Report: Committee Structure

- MyTRB - Official Registration of Membership and Friends
 - Keep your information accurate!
- Members: 24
- Friends: 51!!!!
- Recruitment (membership drive) to meet membership targets
 - Young member coordinator
 - Young members (<35 y/o)
 - Geographic diversity requirements
 - Increasing inclusion: race and ethnicity, ability
 - Membership is 3-year terms, renewable up to 3 times
 - Membership is rotated 1/3rd per year

Chair's Report: Paper Review Process

- 38 submitted papers
- 15 accepted for Poster Session (1331)
- 4 recommended for publication
 - MANY THANKS TO PAPER REVIEWERS!!!!
- One session: Data Challenge
 - (You'll hear more during the liasons!)

- Need to develop paper review strategy

Chair's Report: PAPER REVIEW PROCESS

- Criteria
 - Overall Weighted Score
 - Average presentation score
 - “Camera-ready” quality
 - No “fatal flaws” identified

Special Award

TRB TRANSPORTATION RESEARCH BOARD

CERTIFICATE OF APPRECIATION

Presented to

John Levin

In recognition of your outstanding leadership in the establishment and promotion of the Transit ITS Data Exchange Specification (TIDES) initiative and your continued support for state-of-the-art transit data analysis

Catherine Lawson

CATHERINE T. LAWSON, CHAIR
TRB TRANSIT DATA COMMITTEE

Stephen Andrie

STEPHEN J. ANDRIE
TRB STAFF REPRESENTATIVE

JANUARY 2021

The National Academies of
SCIENCES • ENGINEERING • MEDICINE

Chair's Report: Committee-Sponsored TRB Sessions

- Event 1446 - 3rd Annual Innovations in Transit Performance Measurement Challenge
(Fri) 1/29/2021 at 1:00PM - 2:30PM EST
- Event 1331 - Putting Transit Data to Work: Advancements in Making, Mixing & Matching, and Employing Machine Learning (ML) Techniques
(Wed) 1/27/2021 at 4:00PM - 5:30 PM EST

Other TRB Sessions

- LINC: An Algorithm for Linking Incidents to Rail Customer Delays Inspired by Traffic Flow Theory - M. Eichler (Thu) - 1/28/2021 10AM - 11:30AM EST

New Opportunities to Expand Transit Data Uses with
New Partners

COMMUNITY LIFELINES IMPLEMENTATION TOOLKIT

*Comprehensive information and resources for
implementing lifelines during incident response*

FEMA

Version 2.0
November 2019

<https://www.fema.gov/media-library-data/1576770152678-87196e4c3d091f0319da967cf47ffd9c/CommunityLifelinesToolkit2.0v2.pdf>

Community Lifelines Defined

A CONSTRUCT FOR OBJECTIVES-BASED STABILIZATION EFFORTS

A lifeline enables the continuous operation of critical government and business functions and is essential to human health and safety or economic security.

- Lifelines are the most fundamental services in the community that, when stabilized, enable all other aspects of society to function
- Lifelines are the integrated network of assets, services, and capabilities that are used day-to-day to support the recurring needs of the community
- When disrupted, decisive intervention (e.g., rapid service re-establishment or employment of contingency response solutions) is required to stabilize the incident

Community Lifeline Components

Multiple components and subcomponents establish the parameters of the lifeline; component-level assessment is required to determine the condition of each lifeline.

1. Safety and Security

- Law Enforcement/Security
- Fire Service
- Search and Rescue
- Government Service
- Community Safety

2. Food, Water, Shelter

- Food
- Water
- Shelter
- Agriculture

3. Health and Medical

- Medical Care
- Public Health
- Patient Movement
- Medical Supply Chain
- Fatality Management

4. Energy

- Power Grid
- Fuel

5. Communications

- Infrastructure
- Responder Communications
- Alerts, Warnings, and Messages
- Finance
- 911 and Dispatch

6. Transportation

- Highway/Roadway/Motor Vehicle
- Mass Transit
- Railway
- Aviation
- Maritime

7. Hazardous Material

- Facilities
- HAZMAT, Pollutants, Contaminants

ASSESSMENT

Status "What?"

Impact "So What?"

Actions "Now What?"

Limiting Factors "What's the Gap?"

ETA to Green "When?"

Download Data for Planning.

This page allows users to download natural hazard loss data at a variety of geographies including the NCEI Storm Events Data, the SBA Disaster Loans, and the FEMA Public Assistance and Individual Assistance datasets. Below you can find instructions for setting specific parameters to download the data that works for you.

National Data

To download national data simply the select the dataset of your choice and leave all filters unselected. Click export data.

County Data

You can pull any of the three datasets for any state or county the United States and Puerto Rico by using the State filter to select the state or county. You can also select the state first and the use the County filter to select all of the counties or a single county within that state.

Data Partnership Initiative

- Transit Agencies need to understand the nature of natural hazards in their system's geography to participate effectively in Community Lifeline responses.
 - FEMA's historical hazard data (hazarddata.org)
 - Types of hazard events by County (can be aggregated for multi-county transit systems)
 - Magnitude of event by Loss data

Data Partnership Initiative

- FEMA needs to know how our transit agencies can/do respond pre-, during, and post- event to conduct assessments for Community Lifelines.
 - Transit Data
 - Transit Stop Locations (GTFS)
 - Transit Routes (GTFS)
 - Current routing
 - Schedules

Potential Partnership Topics

- How can transit agencies assist in getting vulnerable populations to shelters?
- How can transit assist in getting these populations back home?
- What are the opportunities to propose hazard mitigation plan actions to reduce risk going forward for our communities using buses, rail, and ferries?
- What infrastructure needs (e.g., power storage for electric buses) should be located along Community Lifeline Corridors?

Innovations in Transit Performance Measurement Challenge

Who to unmute: Laura Moeini

TRB Annual Meeting 2021

Friday, January 29 | 1:00-2:30PM EST

Sponsored by the Transit Management and Performance Committee and the Transit Data Committee, six finalists will present their innovative performance analyses, visualizations, and apps designed to support strong, data-driven decisions at our transit agencies. Presenters will answer attendee questions during a Q&A, and a winner will be announced at the end of the event.

TCRP G-18 Improving Access and Management of Transit ITS Data

TCRP SG-18 Update: Transit Analyst Toolbox

- TCRP Synthesis SG-18:
 - **The Transit Analyst Toolbox: Analysis and Approaches for Reporting, Communicating, and Examining Transit Data**
- PI: Polly Okunieff
- Submitted Early 2019, Started Late 2019
- Met twice, once in person in late 2019, once virtually in mid 2020
- Currently in editorial review, out sometime in 2021
- Focused in on data governance as a key issue surrounding how transit agencies set up data for use throughout the organization
- Auxiliary focus on the tools that agencies use to analyze and present data
- Multiple case studies on different agency sizes/modes/how they got started
 - Some are top down/IT based, some are departmental based

- Vision: To define a set of **strategic visions** that will guide public transportation into a **sustainable and resilient future**, and to equip local planners with the **tools** needed to **translate their chosen vision into their own community**.
- Possible Strategies:
 - Transit as a social service
 - Consolidation into high-volume, capacity-constrained corridors
 - Integrated on-demand multi-modal transit
 - Pricing and incentives
 - COVID-19 recovery strategy

Ferry Safety: Digitizing our way out of disaster

Safety Issues and Digital Solutions

- Overcrowding– CCTV pax count, load line
- Untrained crew – e-learning – digital assessment
- Leadership skills Simulations and AR assessment of individuals and teams. Video analytics
- Vessel quality – remote surveys
- Weather – Monitor installation – data analysis

Synthesis

Next Steps, Brainstorming - Edit in Real Time

(notes here)

REMINDER

Time Required for Different Participation Levels

Participation Type	Duration of Effort	Frequency of Effort
Workshop	2 years	monthly
Subcommittee	multiyear	biannual
Task Team	6 to 12 months	monthly
TCRP Synthesis	3 months (or 15 months)	bi-weekly
TCRP Full Proposal	24 to 30 months	monthly
AP090 Leadership	3 years	varies
Liaison	1 to 3 years	biannual
Young Member Coordinator	varies	monthly
Co-Committee Research Coordinator	3 years	monthly

Quarterly Status Update Call. First one, April 2021!
