

The beginning of the interactive portion of the committee meeting

Your participation is really important to us!

Lets start with something easy!

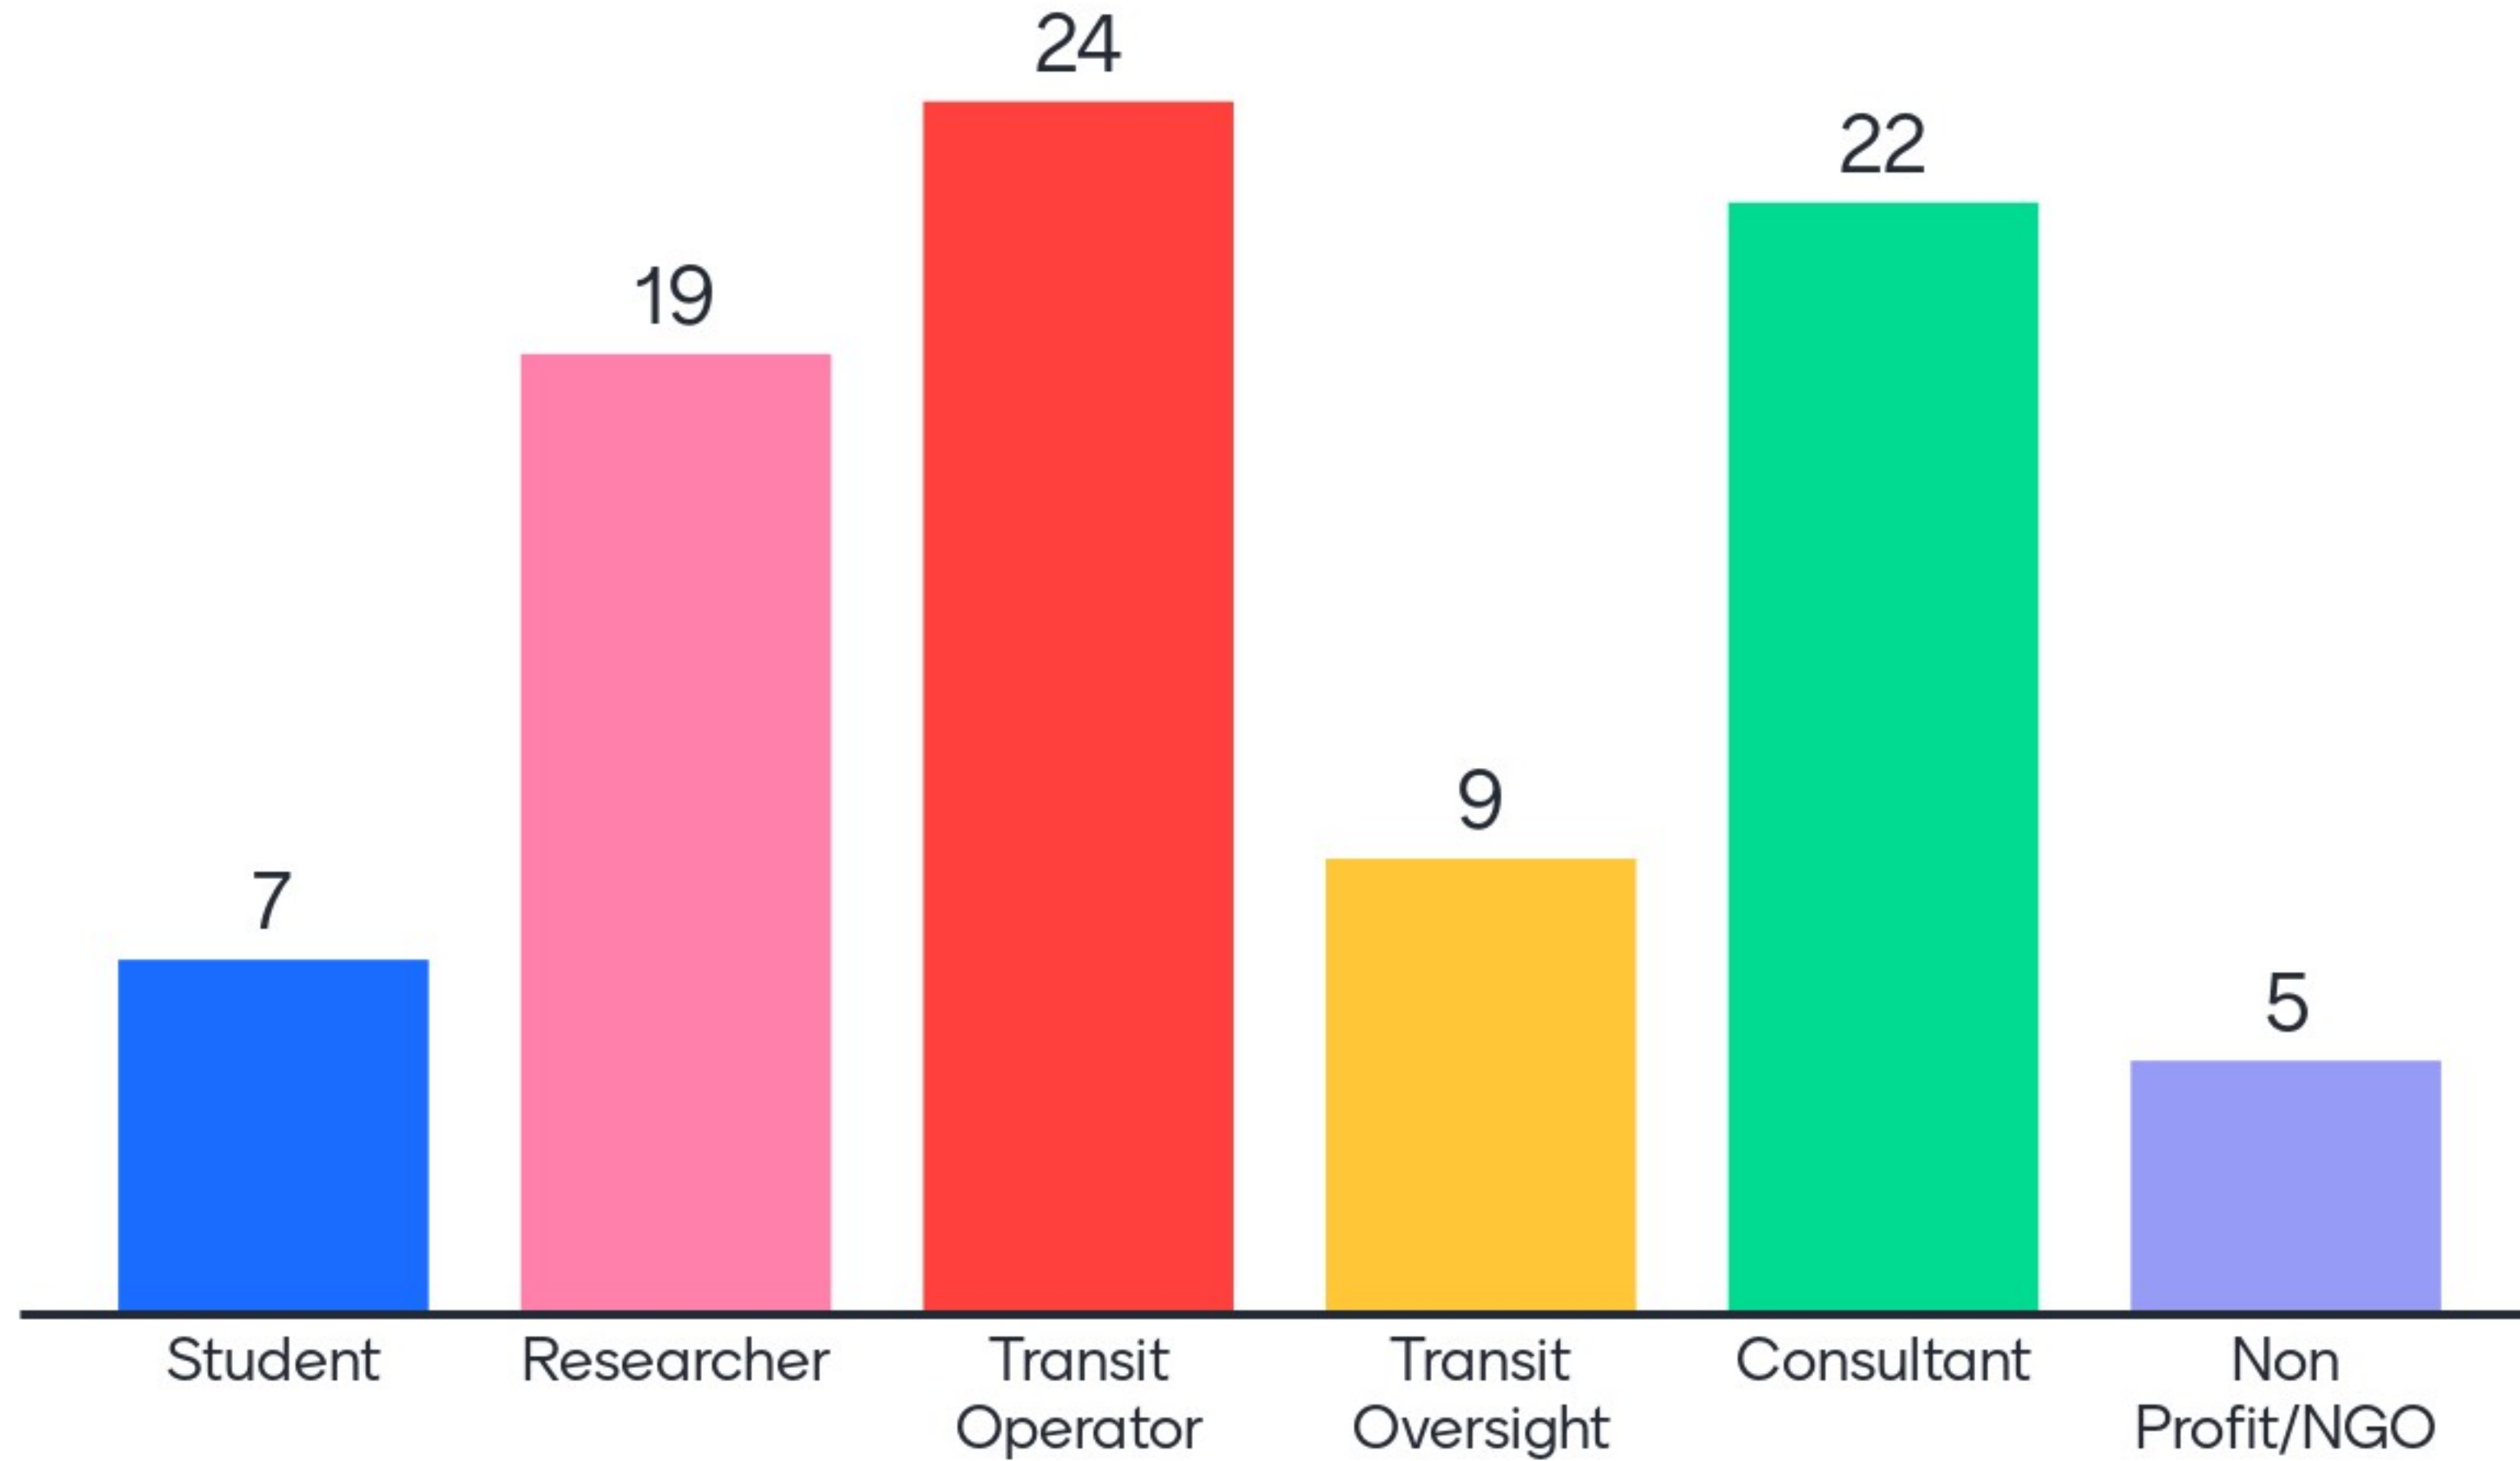

What Time Zone are you in?

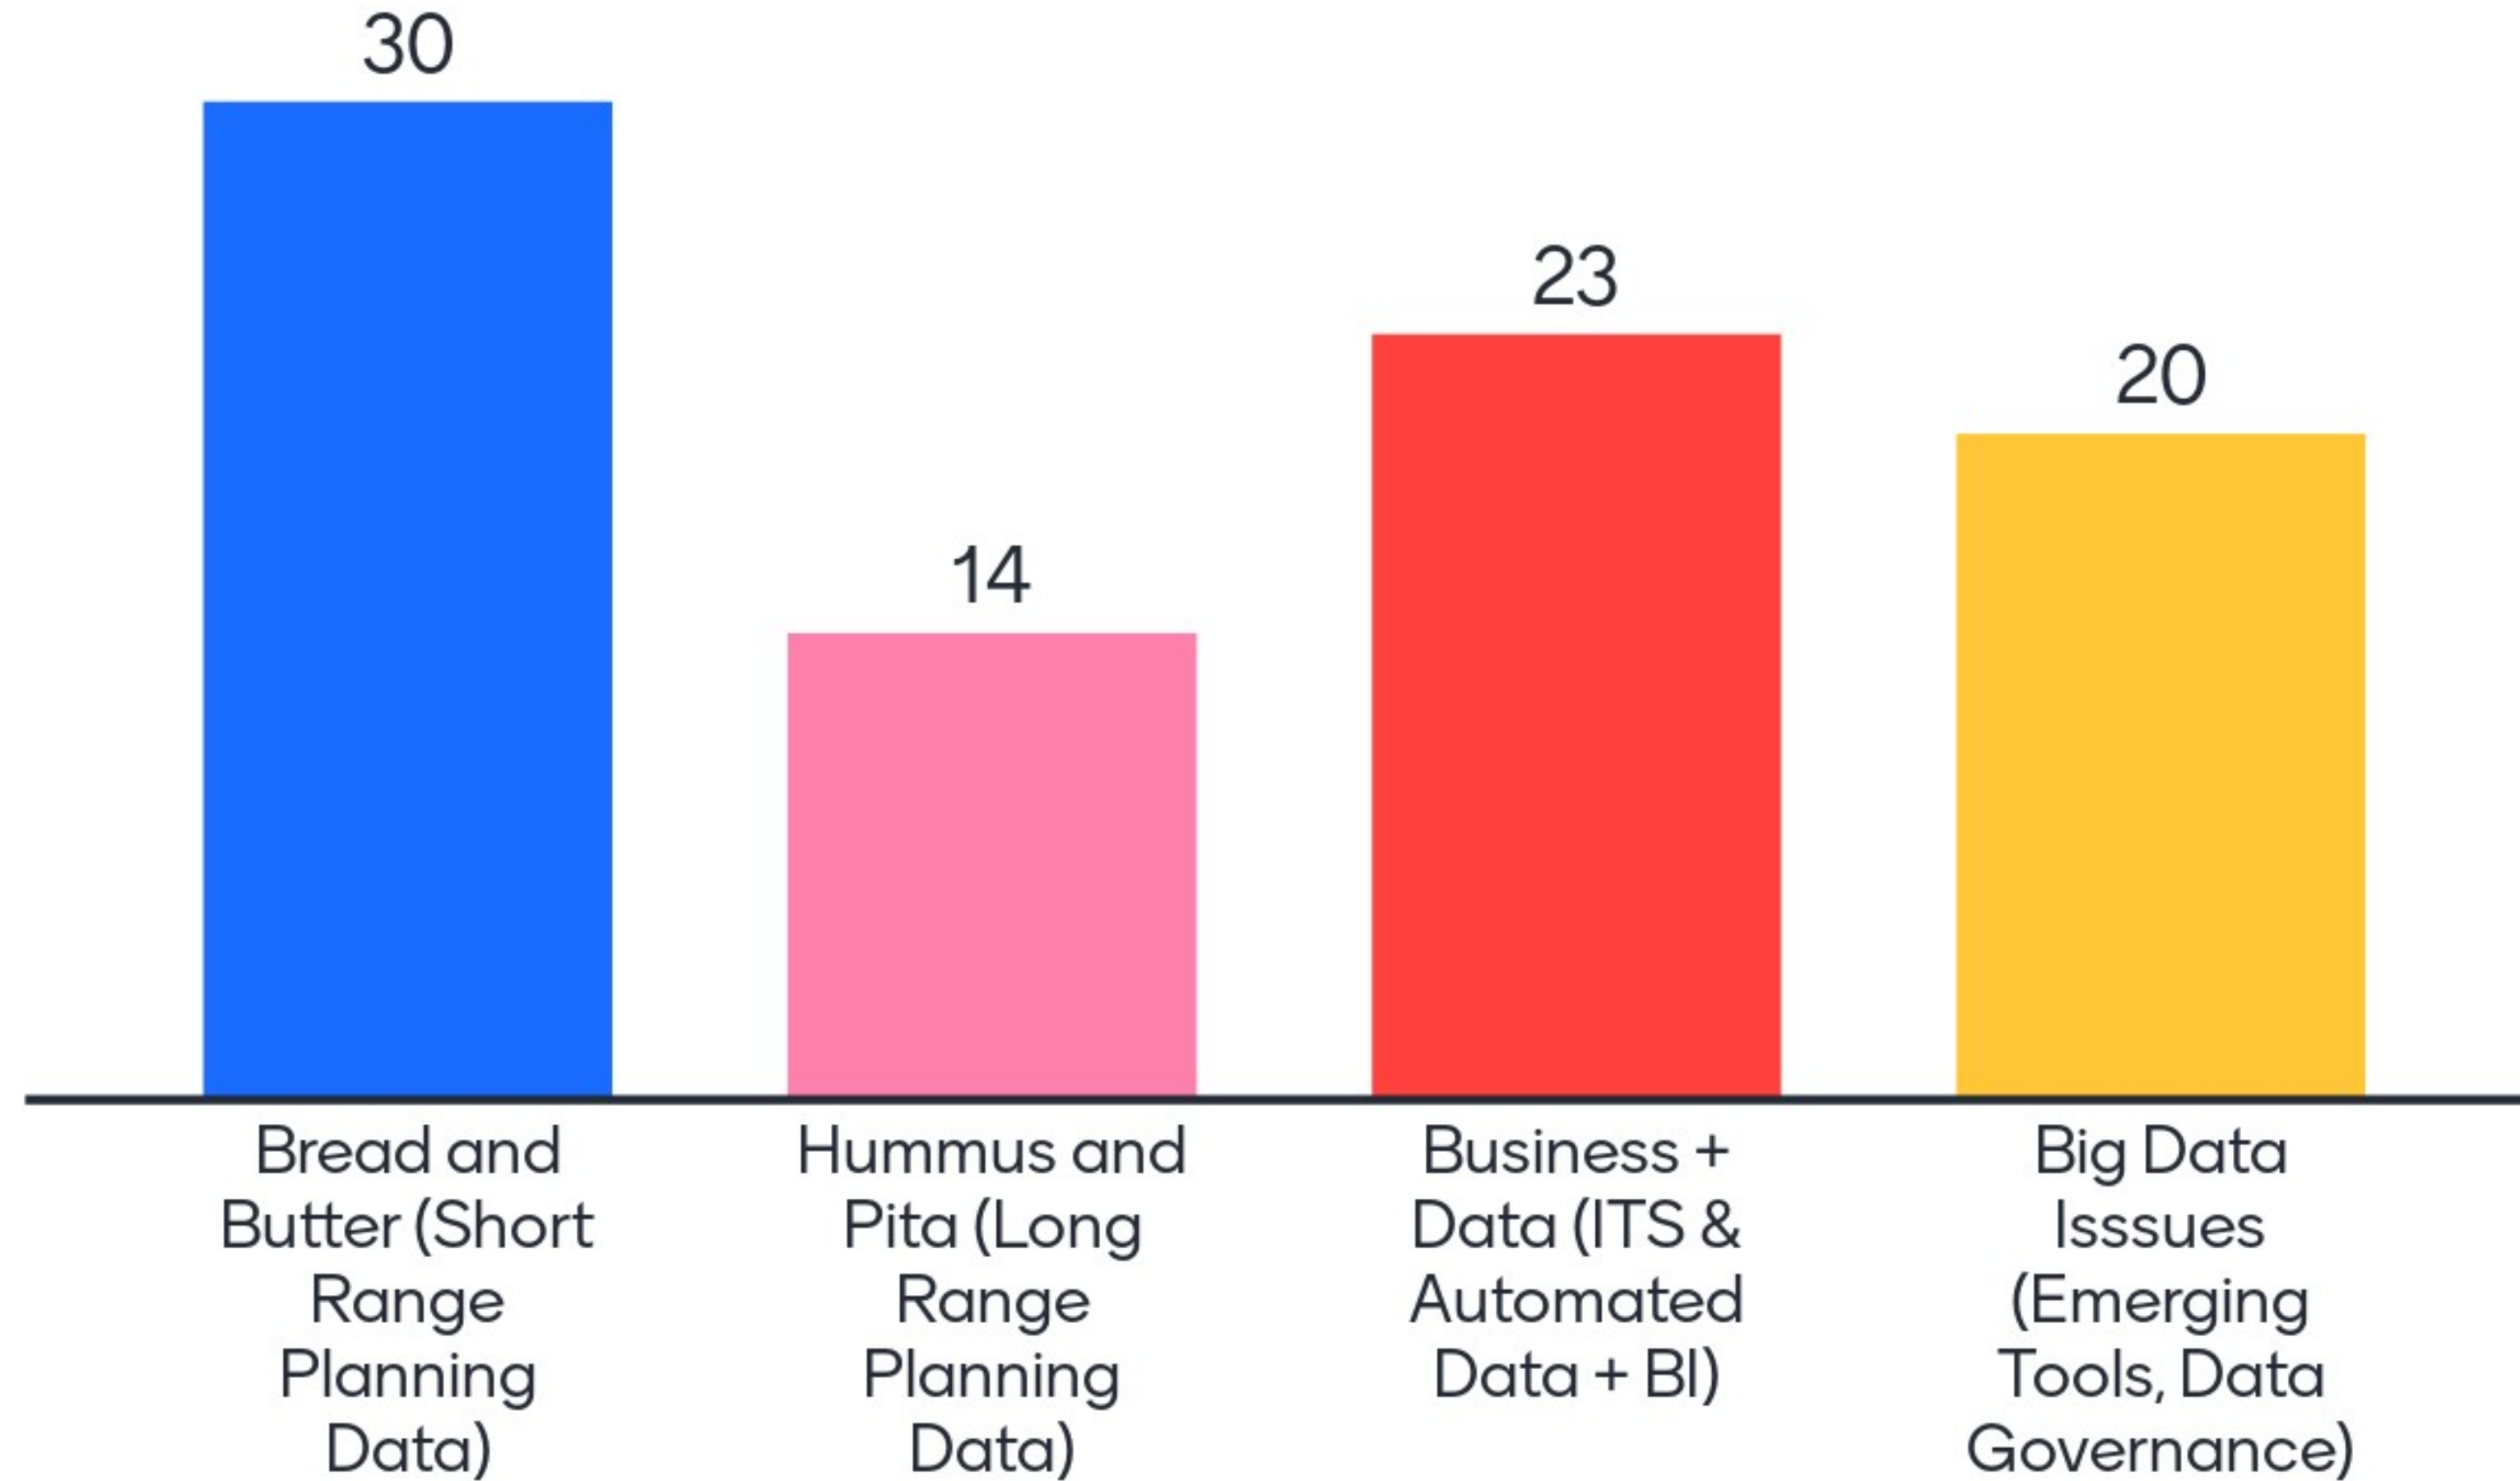

Pro Tip: Never reinvent time

If you find yourself cleverly "making a new way" to tell time... you've done it wrong.

What type of professional are you?

What primary interest do you have?

Brainstorming

Work Practices? What's something that hinders your work?

Does your organization support professional development?

On my own time only (unpaid, non-billable, etc)

During worktime, no resources except Dr. Google

During worktime, collaborating with colleagues

During worktime, in person (haha) learning

During worktime, e-learning at your own pace

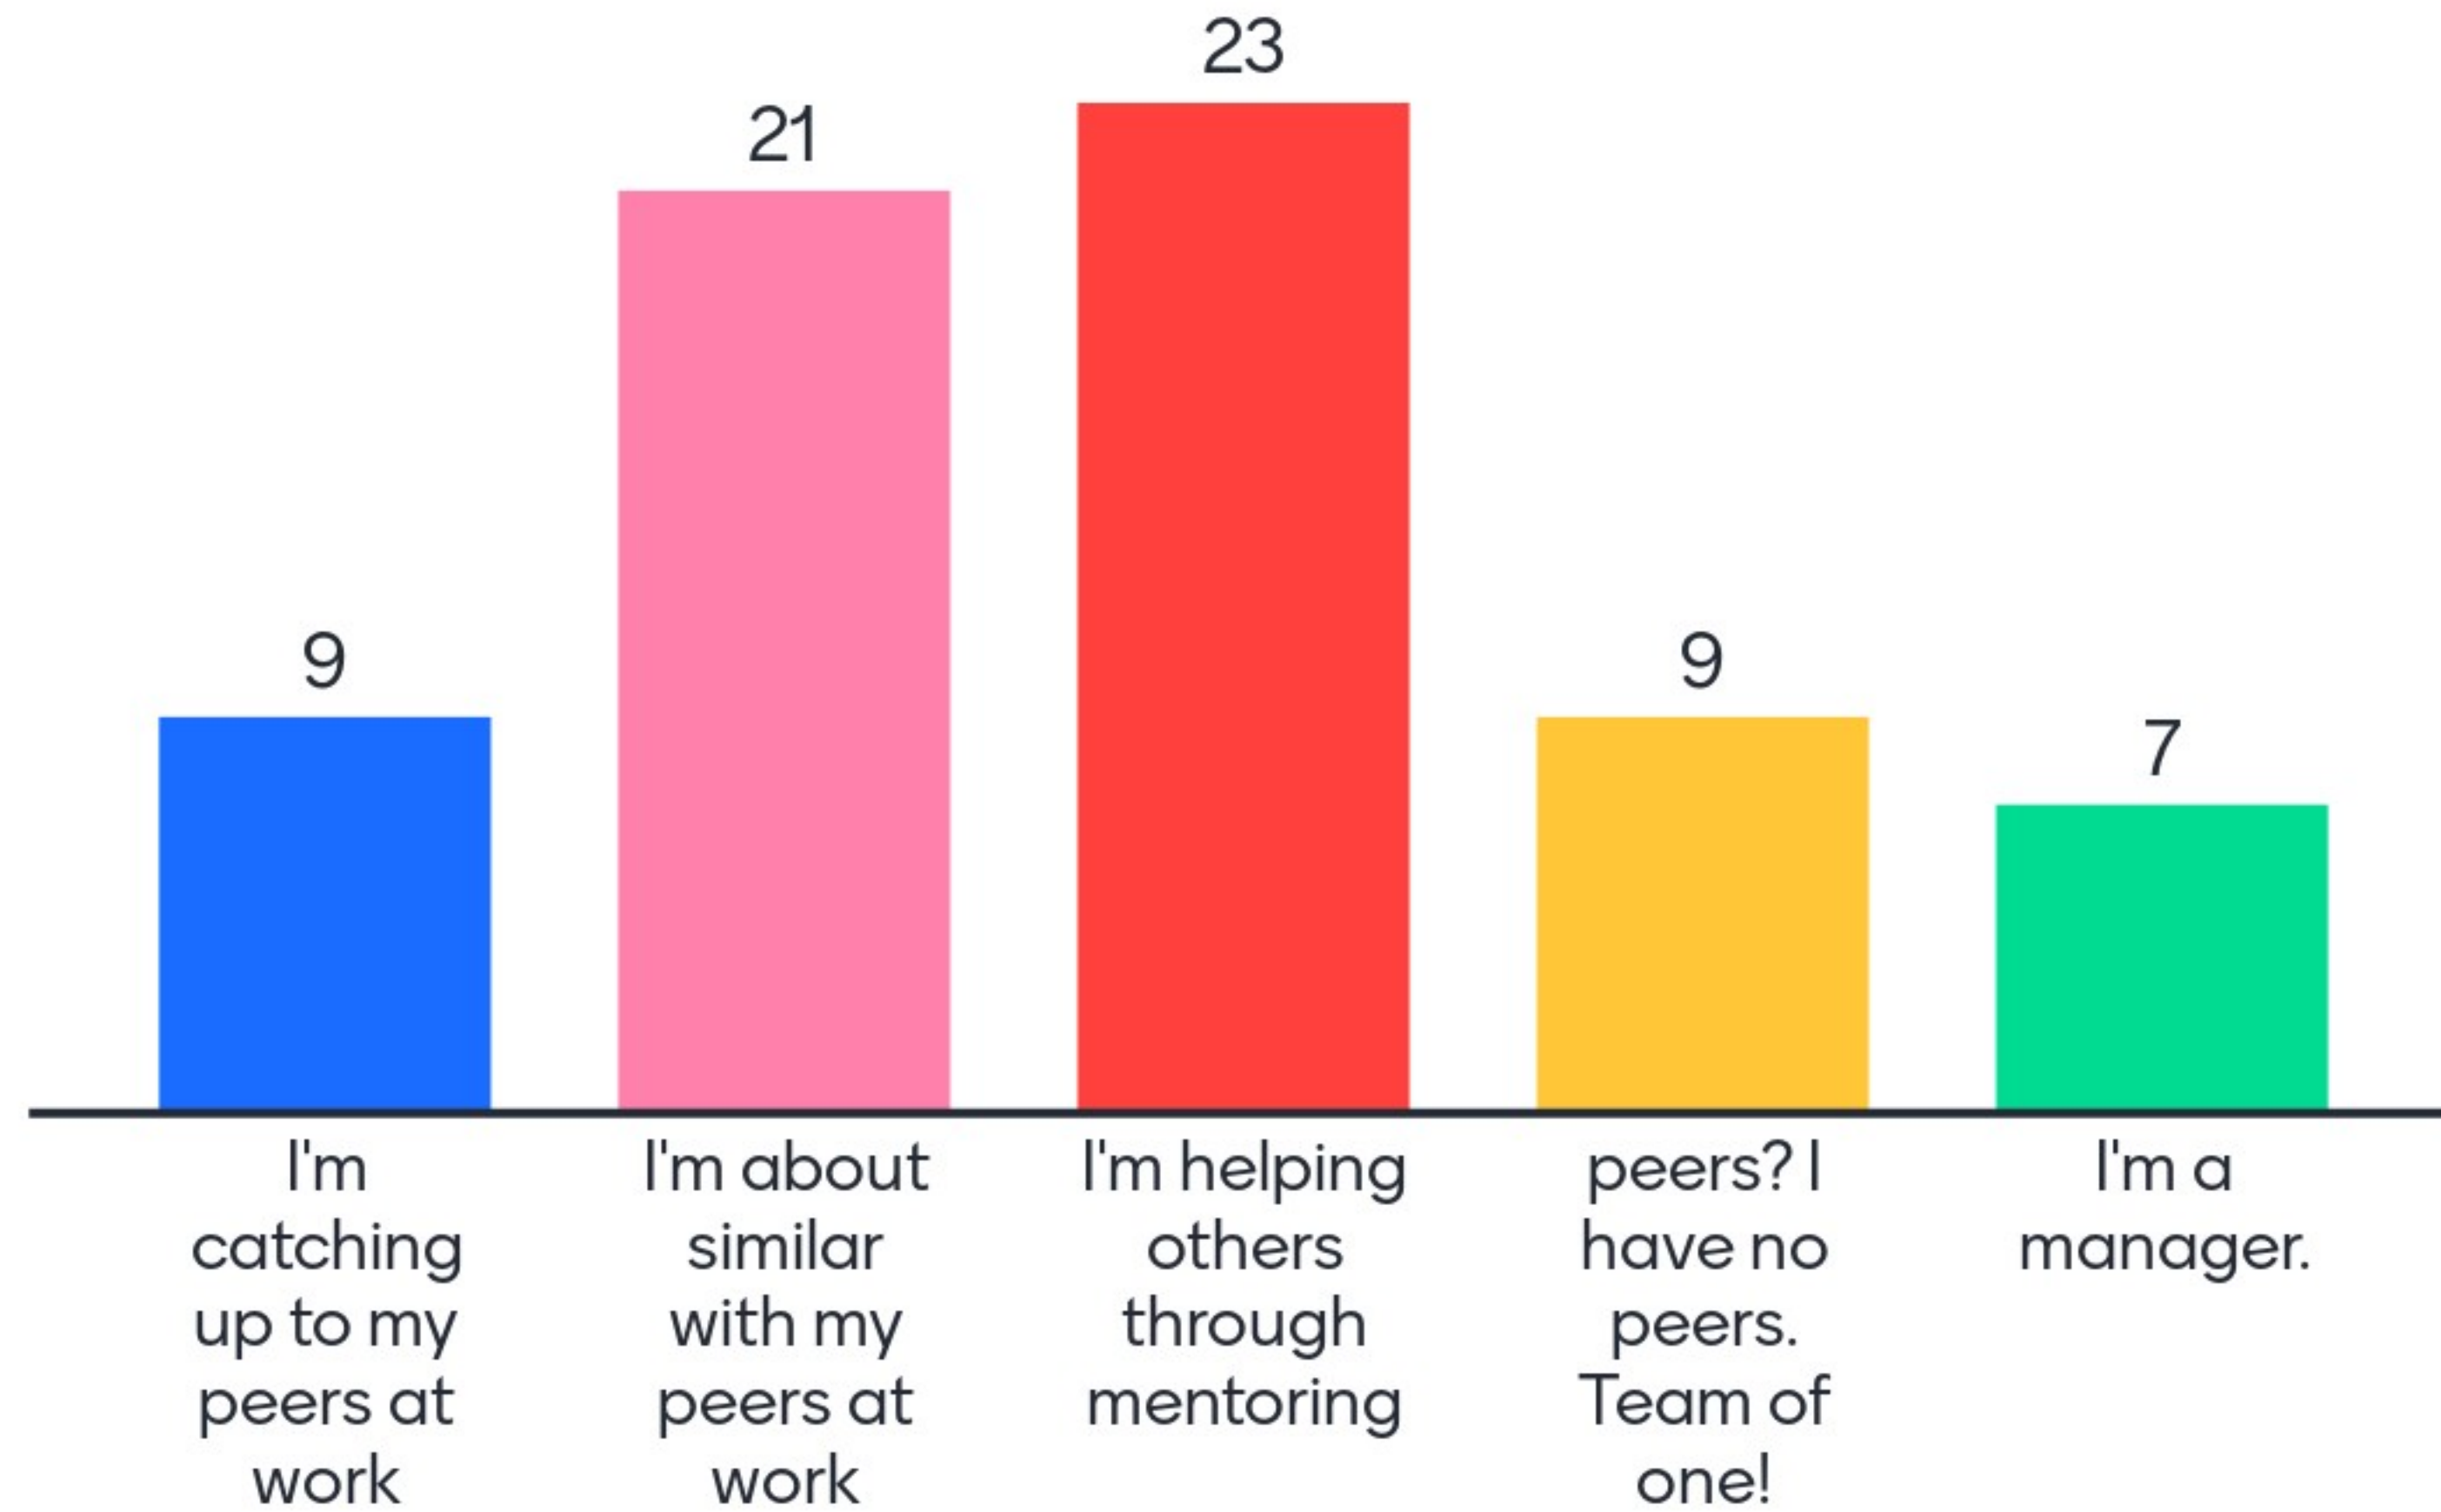

Other?

What type of professional are you?

- Student
- Researcher
- Transit Operator
- Transit Oversight
- Consultant
- Non Profit/NGO
- Unknown

Since you're here... what is your data skills compared to your peers at work?

Work Skills - Where would your organization to be?

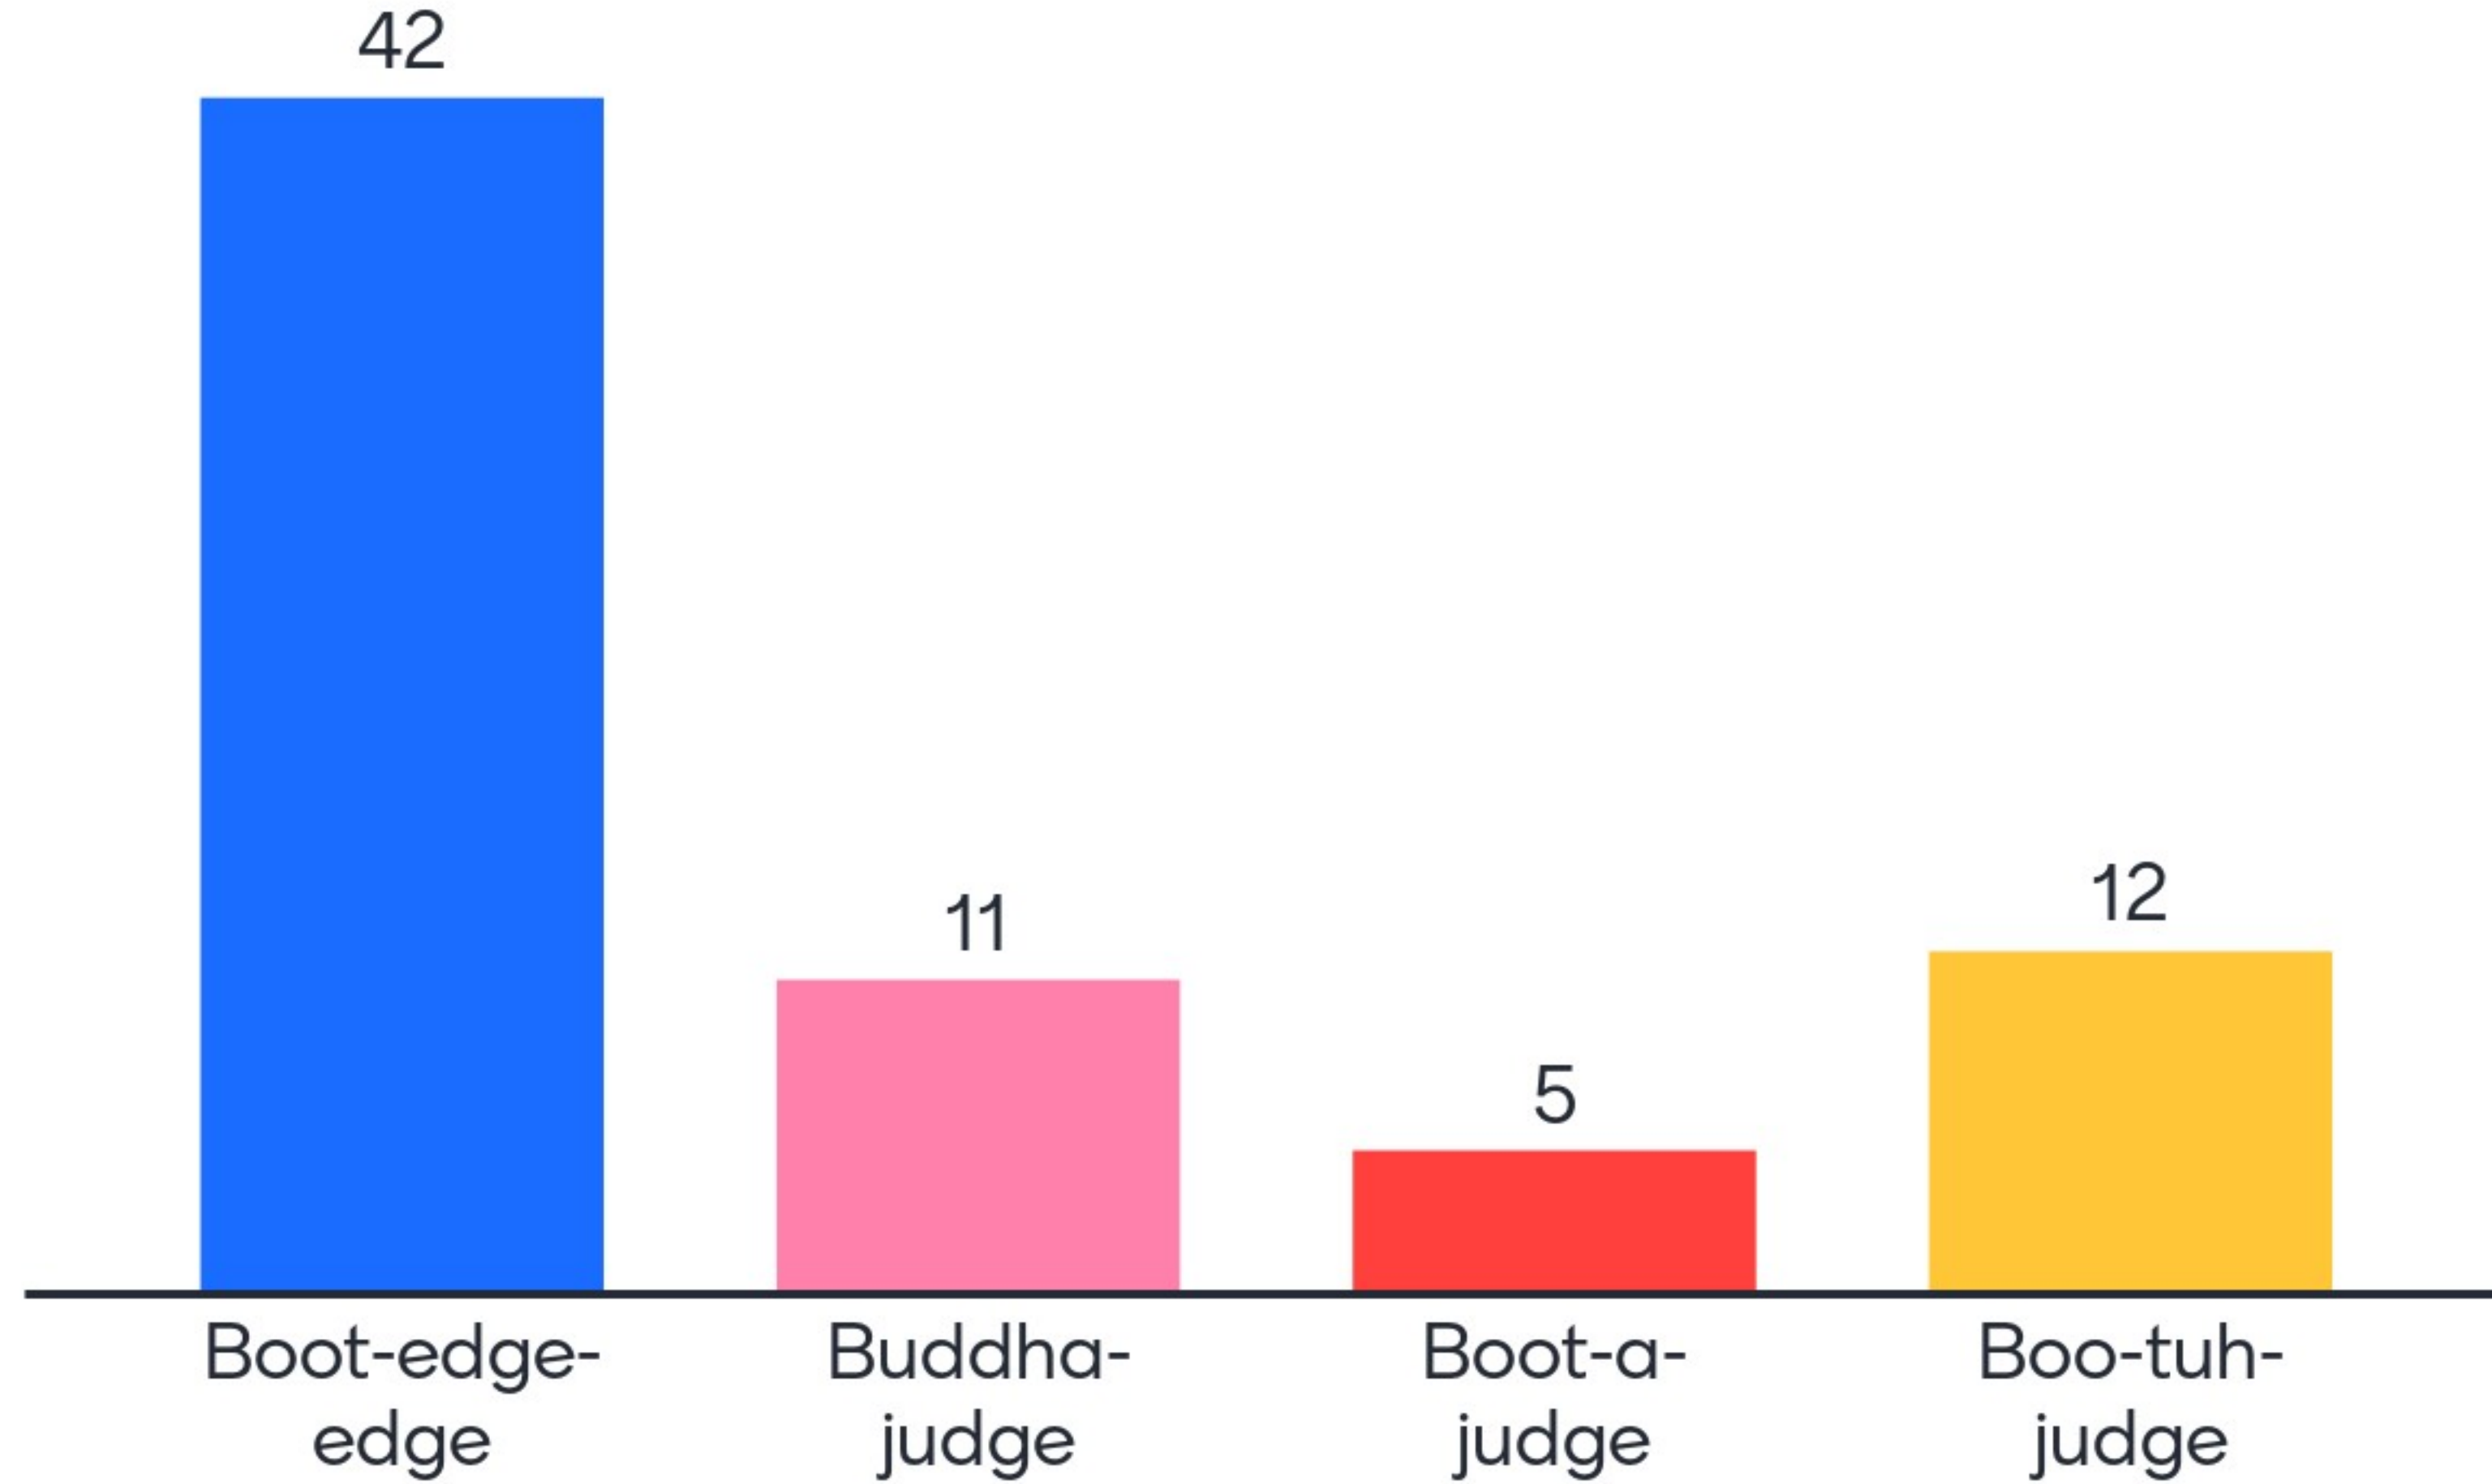

standardized
mayor pete automated reporting
using r and python more
single service for public
github version control
automated collection
bootyjudge
whaaat

Noop

How do you pronounce Buttigieg?

Pete Buttigieg  @PeteButtigieg · Jun 30, 2018

BOOT-edge-edge. But most people just go with "Pete." And thanks!

cheryl turk @njarchivist · Jun 30, 2018

@PeteButtigieg Liking your point of view and your politics, but how exactly do you pronounce your last name? Asking for a friend...

Impossible/Data doesn't exist

What primary interest do you have?

- Bread and Butter (Short Range Planning Data)
- Hummus and Pita (Long Range Planning Data)
- Business + Data (ITS & Automated Data + BI)
- Big Data Issues (Emerging Tools, Data Governance)
- Unknown

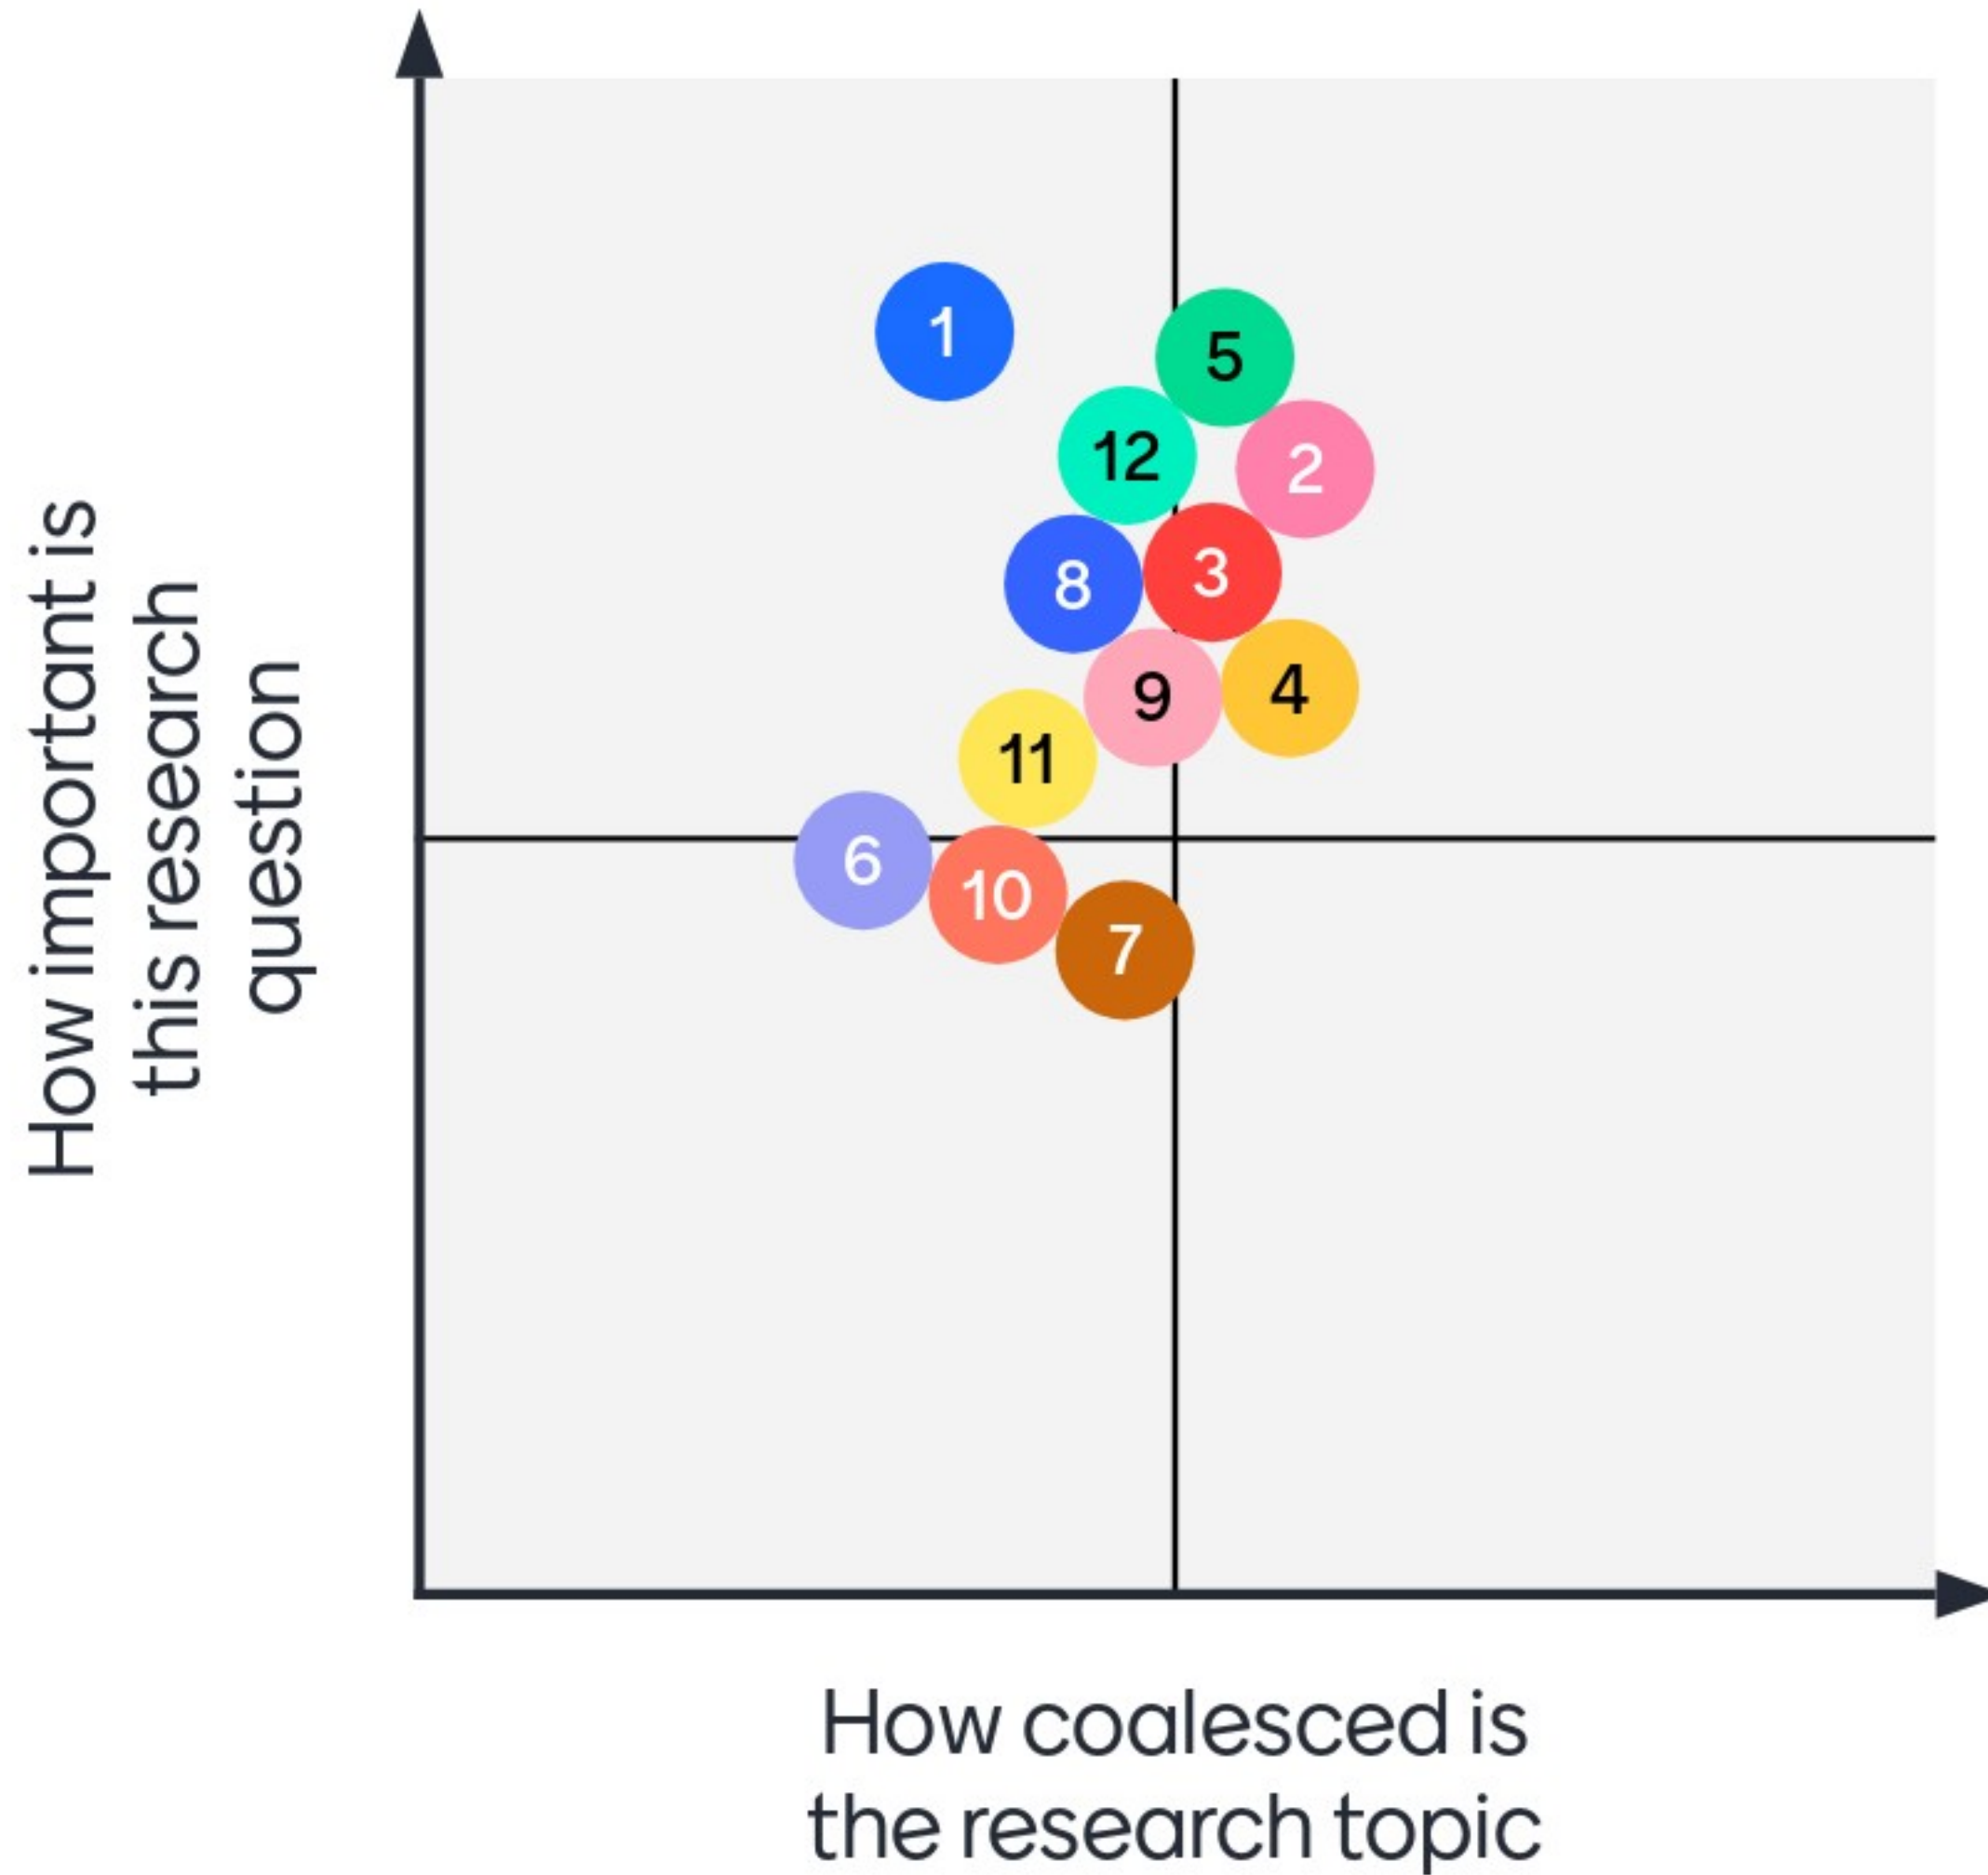

What is your most significant barrier to integrating data streams (AVL/fares/location/etc.)? (Thanks Julie F from Houston!)

Sythesis

Priority

- 1 Equity Data
- 2 Performance Data
- 3 Modelling and model output
- 4 Long Range Planning Data
- 5 Automated Data Collection
- 6 New Internet of Things Data Sources
- 7 BI/Visual Tools (Power BI/Tableau)
- 8 New Mobility Data
- 9 Programmatic Analysis Tools (Python/R)
- 10 Machine Learning Tools (ML/AI)
- 11 Data Governance
- 12 Data Standards
